Portfolio & Services

Reveal what makes you unique.

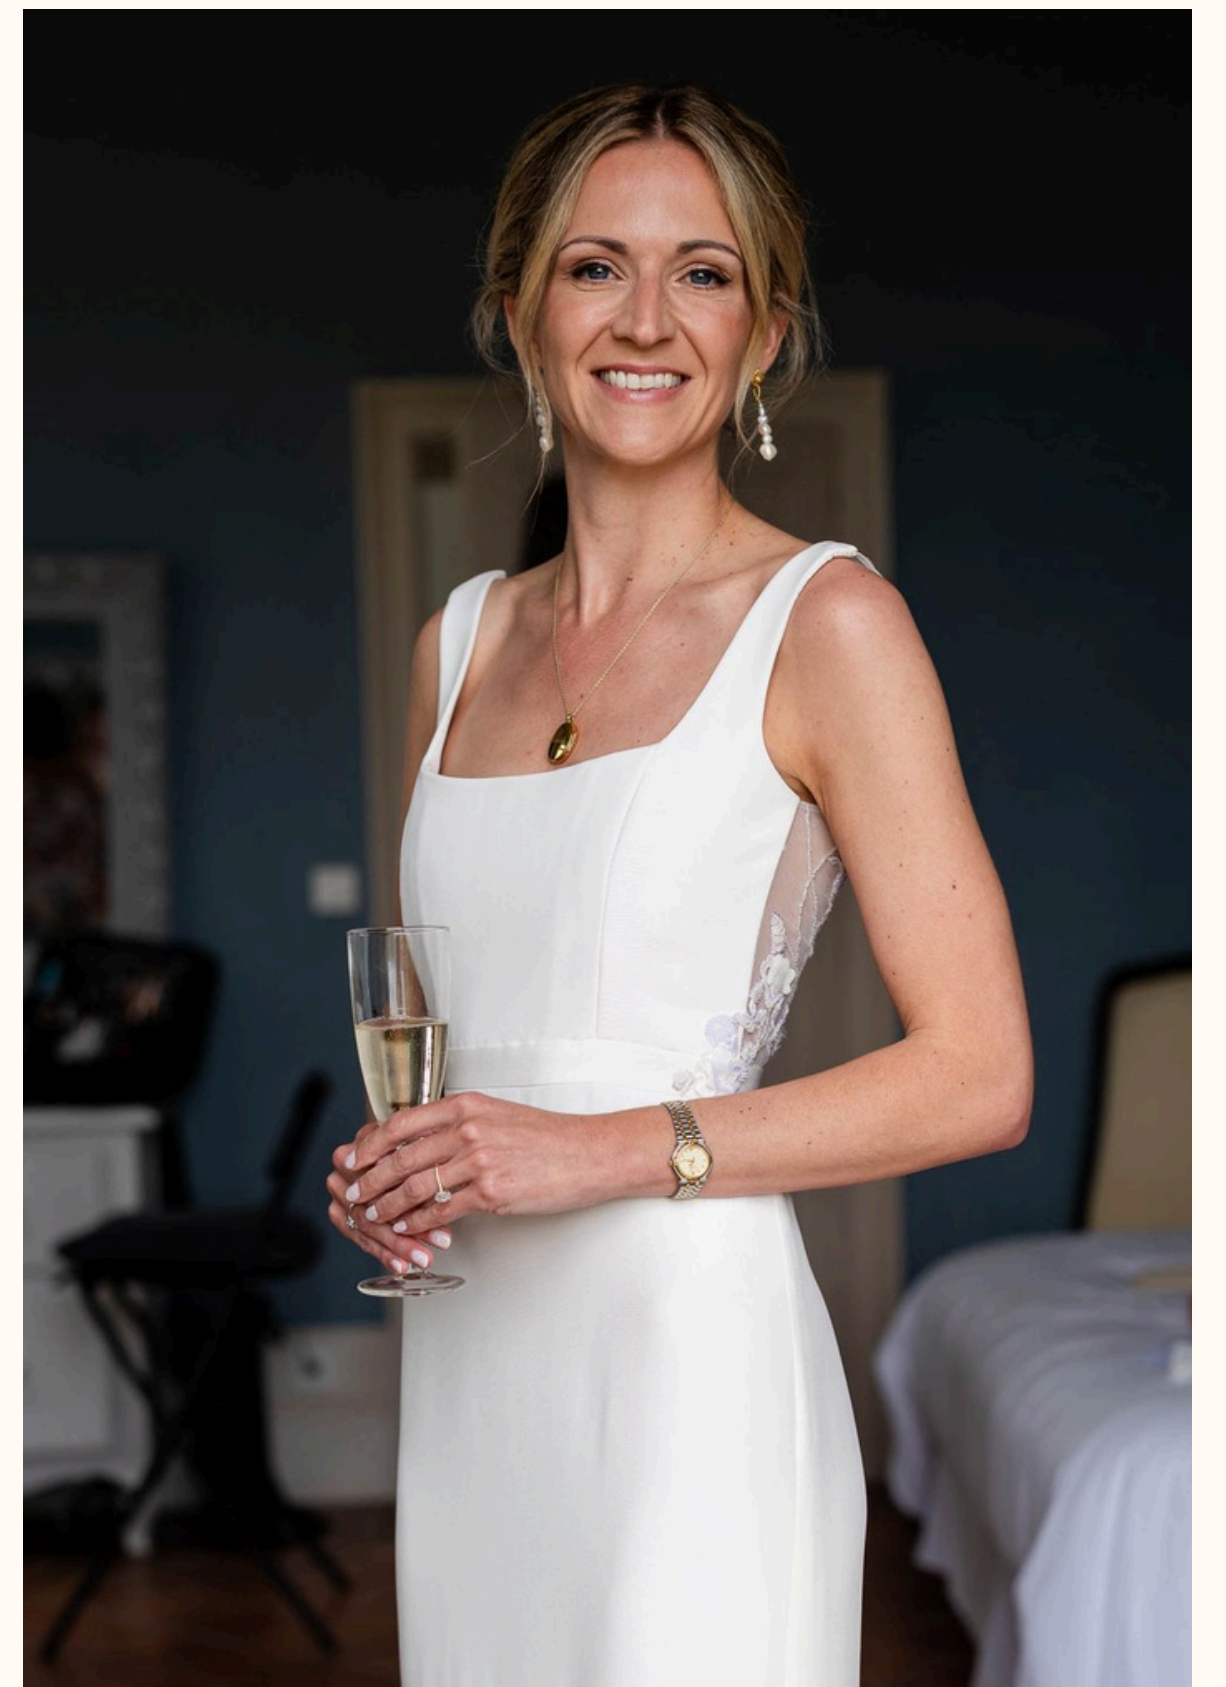

Each wedding is a unique story, and each face tells something different. My approach to bridal makeup is based on listening: understanding your skin, your style and your wishes, to create makeup that looks like you — and lasts beautifully, from the first glance to the last raised glass.

Before each service, I take the time to prepare the skin with a massage, for a luminous complexion and long-lasting wear.

An overview of my work with my brides

Your bridal experience

01

First Contact

A first phone conversation to discover your plans, your date and your wishes.

02

The Makeup Trial

A 2-hour appointment in Gujan-Mestras or at a location of your choice: exploring your style, creating a skincare routine to prepare your skin before your wedding, and then building the makeup look together.

03

Coordination

The schedule for your big day is established in collaboration with your hairstylist, your wedding planner (if you have one) and you.

04

Your Wedding Day

I arrive 30 minutes before the first makeup application to set up. The beauty session always begins with a facial massage — a truly relaxing moment that my brides love — followed by eye patches and a mask, before the makeup application. Allow 40 minutes per guest and 1 hour 15 minutes for the bride, with a touch of glow across the décolleté and arms if needed, followed by touch-ups before I leave.

Services & Pricing
